

SQL Number Functions

08 · Number Functions — Complete Reference Guide

Table of Contents

1. ROUND — Rounding Numbers
2. ABS — Absolute Value

1. ROUND() — Rounding Numbers

→ *Round 3.516 to different decimal places*

```
SELECT
    3.516                AS original_number,
    ROUND(3.516, 2)      AS round_2,
    ROUND(3.516, 1)      AS round_1,
    ROUND(3.516, 0)      AS round_0
```

2. ABS() — Absolute Value

→ *Return the absolute (positive) value of a number*

```
SELECT
    -10                AS original_number,
    ABS(-10)           AS absolute_value_negative,
    ABS(10)            AS absolute_value_positive
```
